Data &
Performance

Our end-to-end offering

A futuristic office scene with several humanoid robots. Three white robots are seated at a round table on the left, facing right. One yellow robot stands on the right, gesturing towards a large screen in the background. The screen displays a document with text in a non-Latin script. The room has large windows overlooking a city skyline.

CUTTING THROUGH THE AI HYPE

Are we embracing the hype?

CUTTING THROUGH THE AI HYPE

Our approach today

LUXID RESEARCH

With Berkeley Haas University of California

BerkeleyHaas

ForgeX.ai - a B2B analyst firm

FOUNDATION FOR AI

1. Data
2. Platforms
3. Process
4. People

PRACTICAL PILOT
EXAMPLES

B2C: Case S-Group

B2B: Luxid clients

A man with a beard is shown from the side, looking at a tablet. The tablet screen displays a dashboard with various charts, including a prominent green area chart at the top and a blue line chart below it. The man is sitting at a wooden desk with some papers and a blue folder. In the background, there is a large window looking out onto a cityscape with green trees and buildings.

CUTTING THROUGH THE AI HYPE

Key findings from the research by Berkeley

Berkeley Haas university research focus

- Research on the adoption and role of AI in Globally operating B2B companies with EMEA & USA focus in the industrial & manufacturing business vertical
- In-depth qualitative interviews for enterprise businesses
- Quantitative survey including SME businesses
- Research still ongoing, final results released beginning of June 2025
- Initial high-level findings summarized in this presentation

Key findings from the research by Berkeley University

AI - Amplifier rather than differentiator

Competitive advantage still comes from quality of product (engineering excellence), CX & support & sustainability/supply chain

Adoption fragmented across life cycle

Pilots ongoing with isolated use-cases rather than deploying parts of a cohesive end-to-end AI infrastructure

AI adoption held back by organization, not Technology

Technology already in place, held back by lack of internal alignment: ownership, training, siloed data

Data utilization: heavy on top-of-funnel

Adoption is concentrated on early-stage upstream marketing activities instead of existing customer related CX

AI is not taking our jobs - it fundamentally changes how teams operate

Prompt engineering, system integration, real-time performance tracking & cross-functional orchestration

Most AI pilots have resulted in solid ROI

35% -50% operational efficiency gains & 50%-70% time savings

CUTTING THROUGH THE AI HYPE

Weekly time spent using AI-enabled tools by B2B marketers

THREE ELEMENTS FOR MANAGING AI

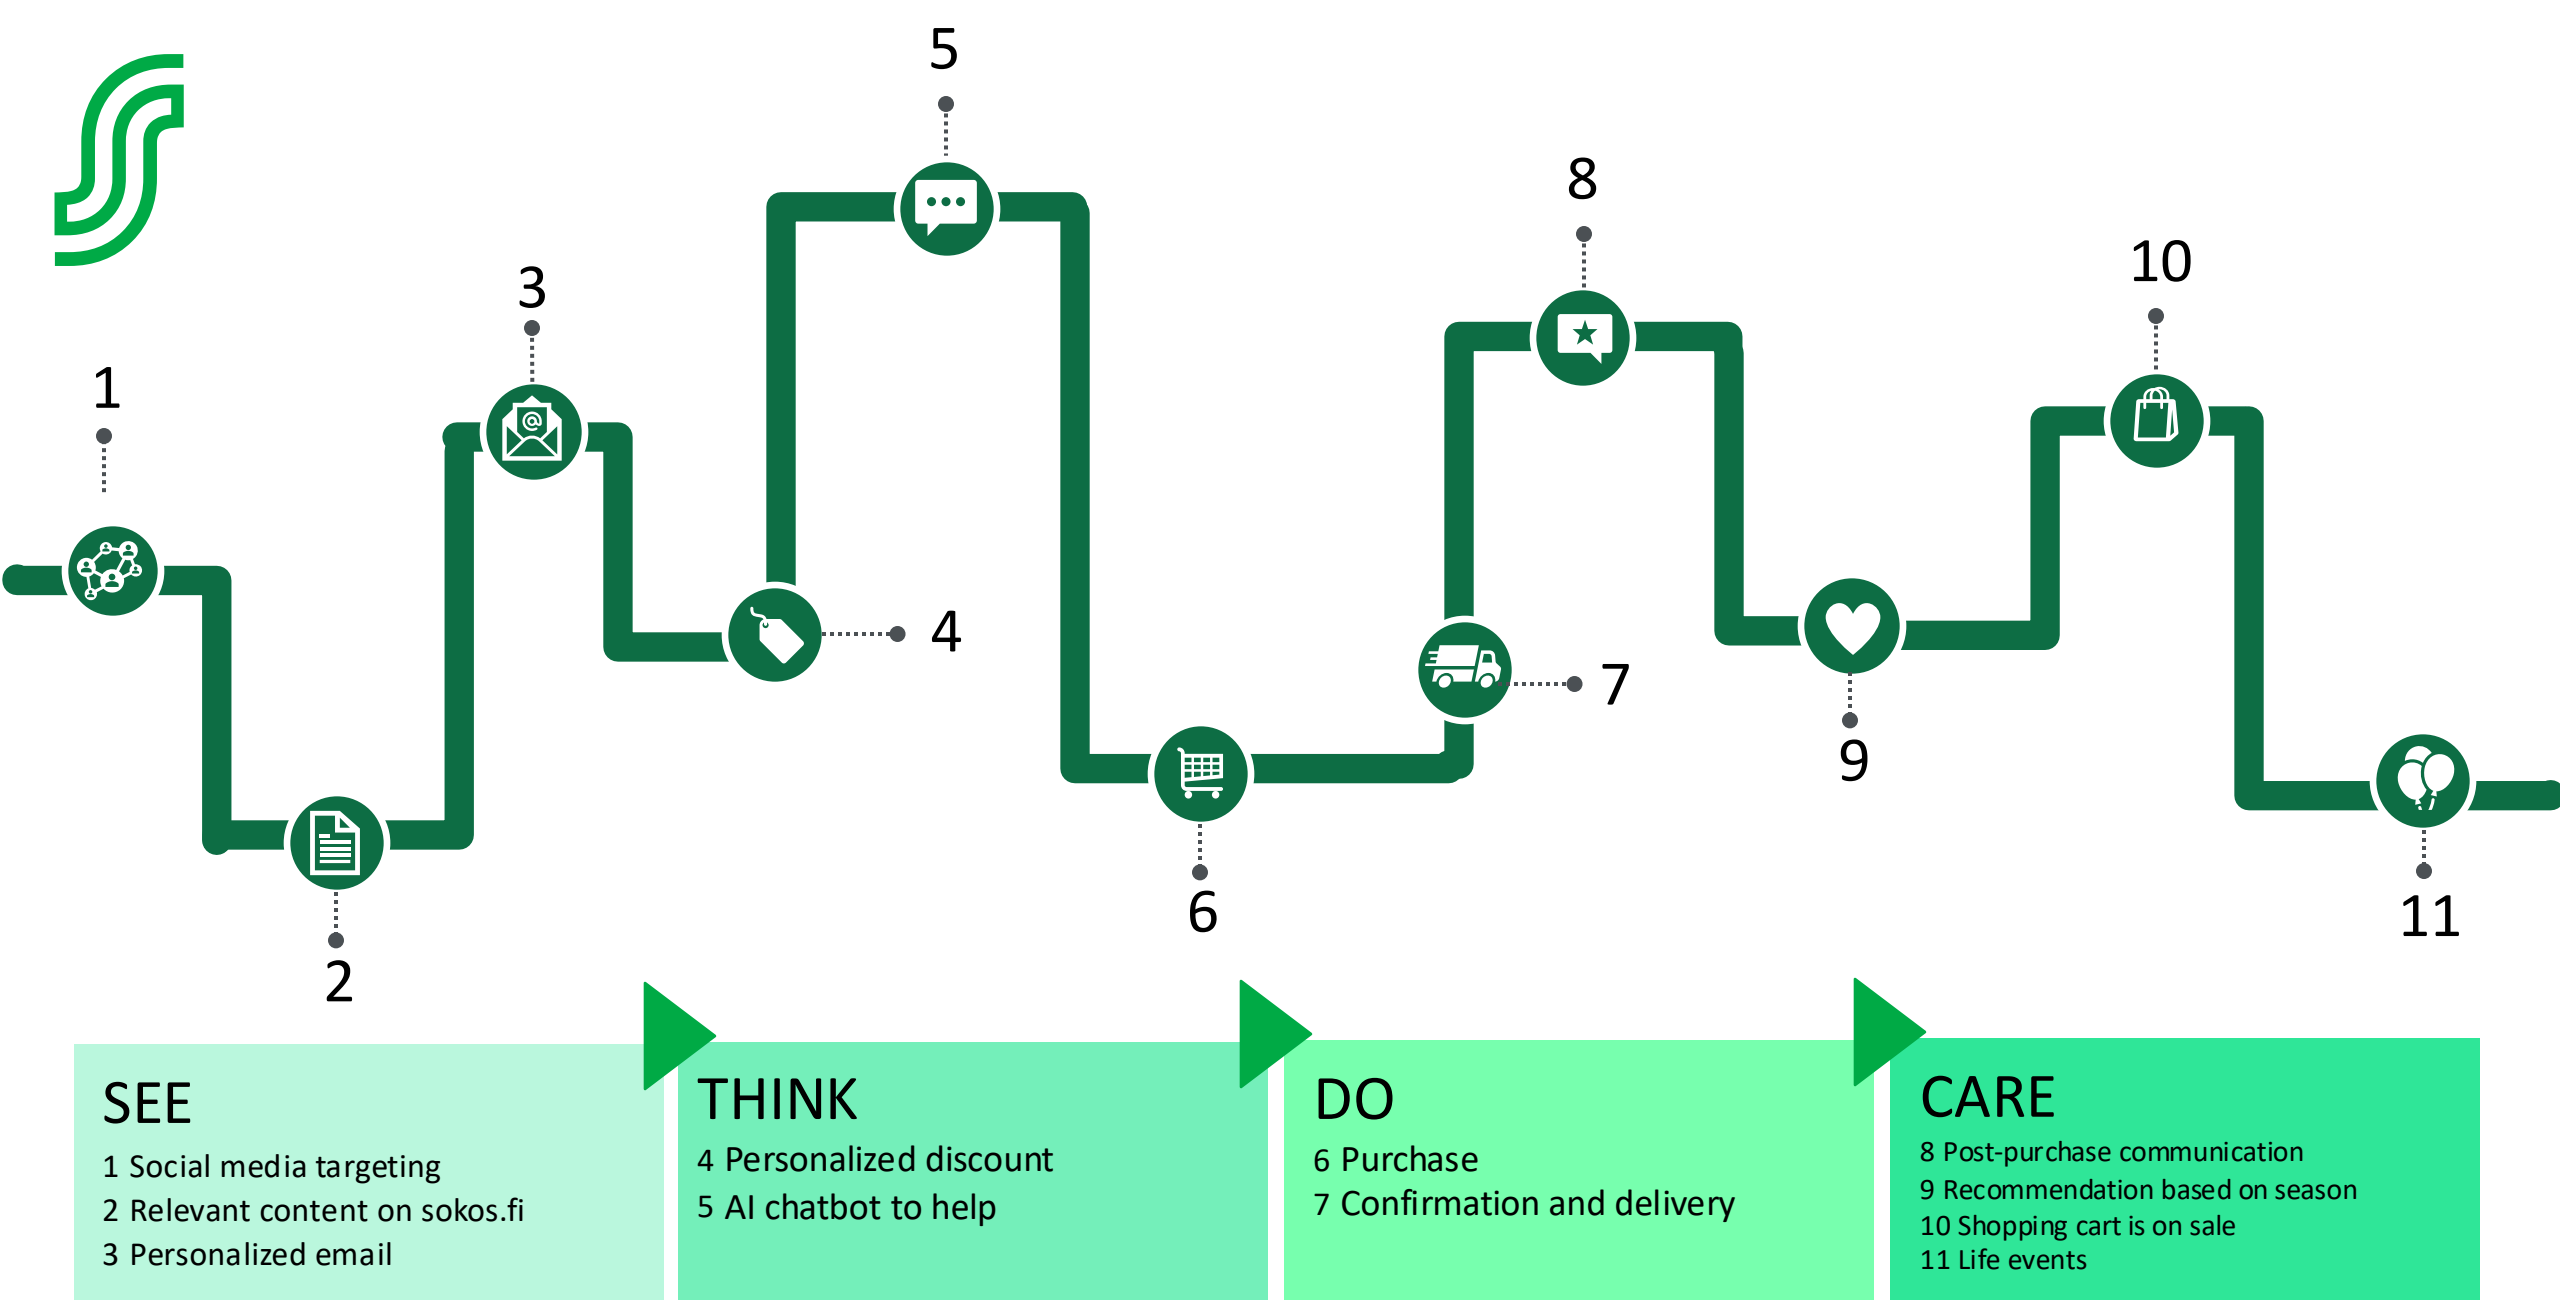

No matter the context,
in reality companies
need three core
elements as the
foundation

A black and white photograph of a person wearing a hard hat and work clothes, walking away from the camera down a long, brightly lit aisle in a server room. The aisle is flanked by rows of server racks filled with equipment. The ceiling has exposed pipes and a single light fixture hangs in the center. The floor is polished and reflects the light.

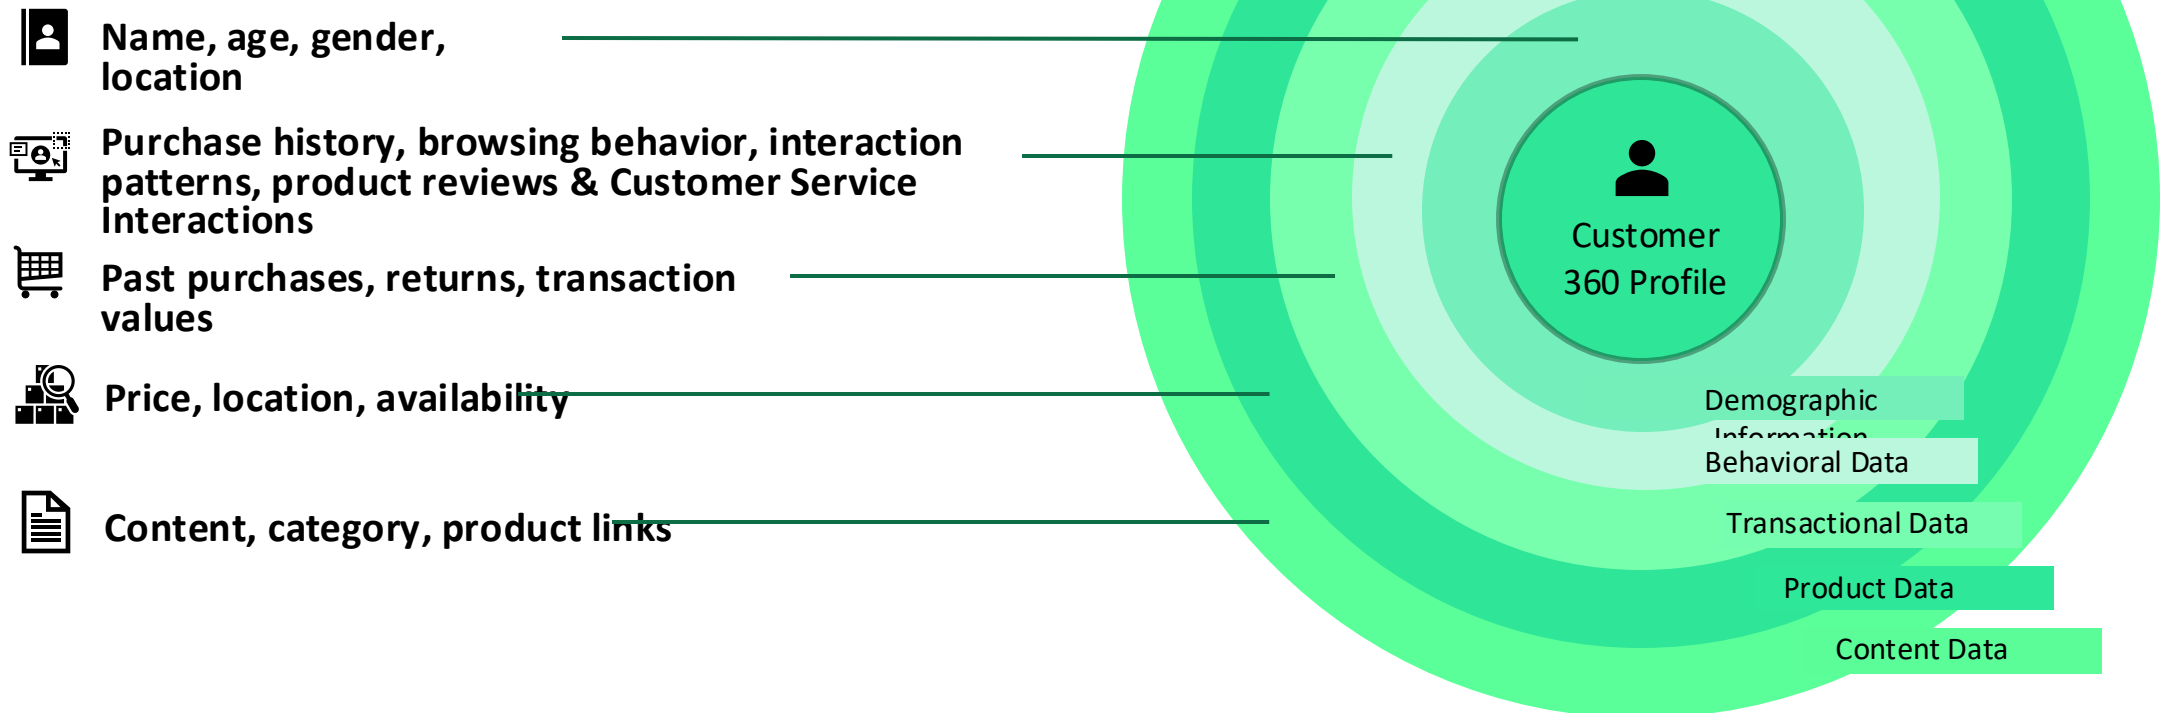

FOUNDATION FOR AI & THE AGENTIC FUTURE

Data & AI enablement

Defining what is Customer 360 for S Group in sales and marketing context

B2B approach with data for AI

Less than 5% of companies are currently leveraging AI Agents

1. Data centralization

- Data access & utilization audits
- Centralized data warehouses
- Content as data

2. Advanced analytics

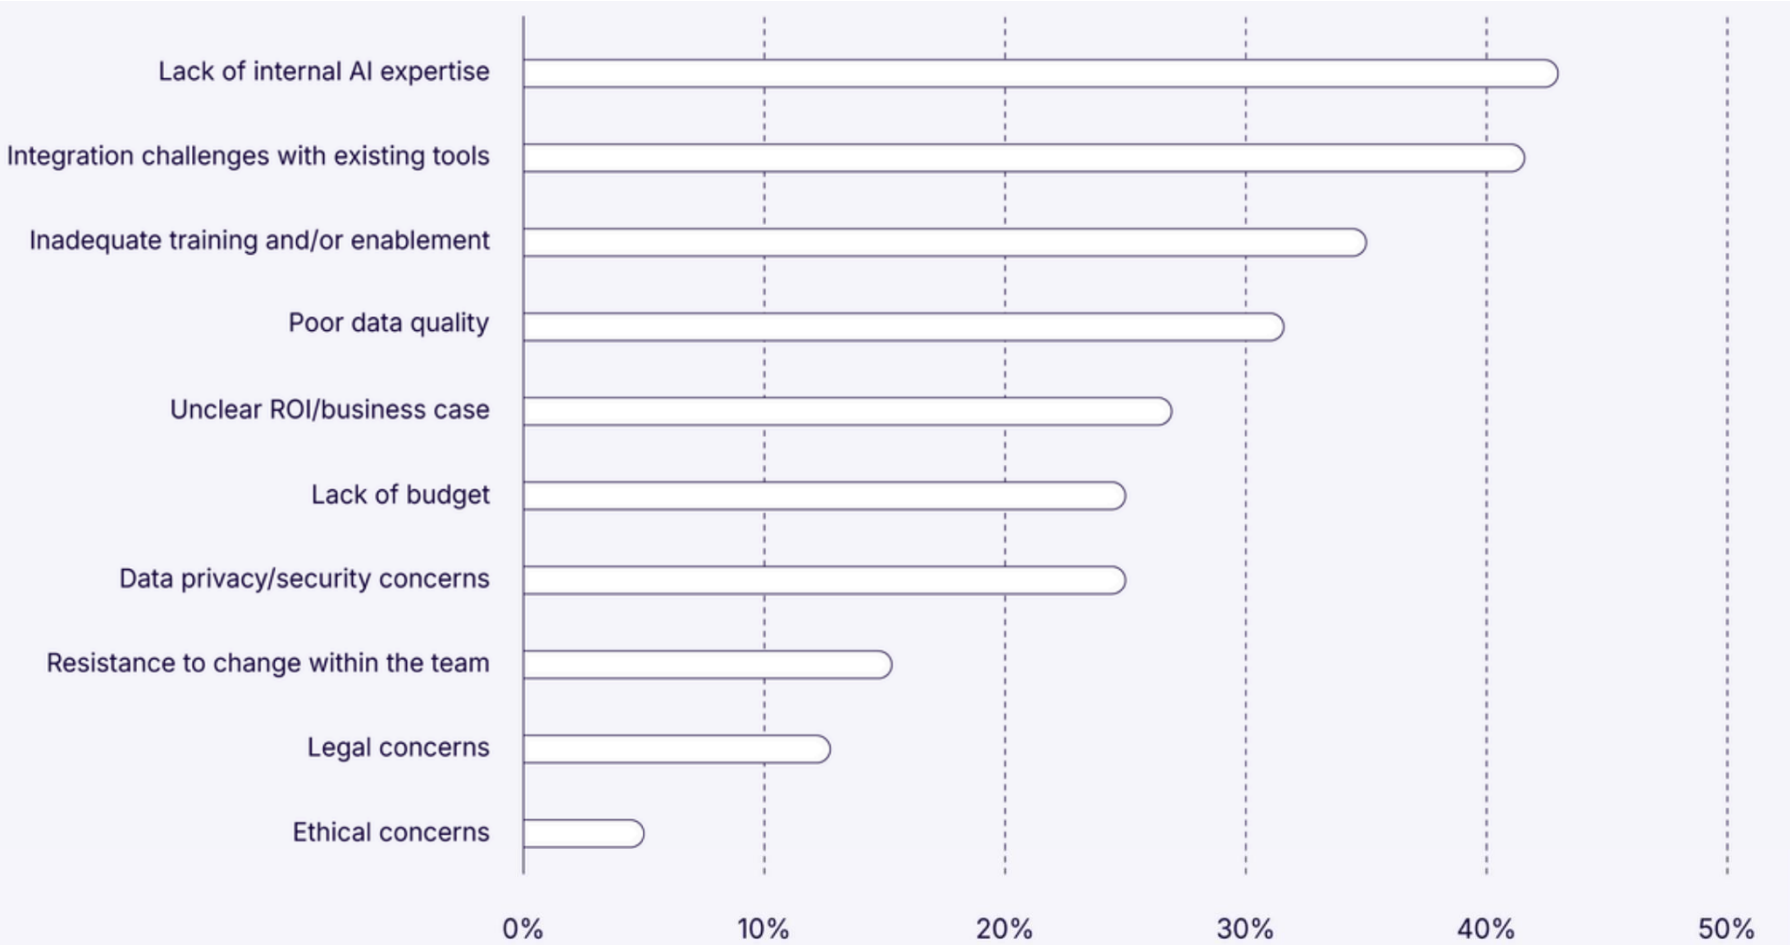

- Classic machine learning
- AI assisted pattern recognition & segmentation

3. Data activation

- CDP onboarding projects & channel expansion
- Agentic AI pilots

CUTTING THROUGH THE AI HYPE

Barriers to AI adoption in organizations

FOUNDATION FOR AI & THE AGENTIC FUTURE

People & processes

Moving towards antifragility in AI operations

Internal AI masterclasses & AI chat rooms

Cross functional AI Tiger Teams
Set personal AI goals & enable self-learning

GenAI tool piloting within AI policy
Encourage / demand experimentation

KPI workshops & ownership to individuals
Tactical decision freedom with KPI accountability

Creating a Best-in-Class Engagement

What is the right organization setup to enable best-in-class engagements?

S Group Brands

Understanding what it takes, below the surface, to be successful

Marketing

Identifying how we meet customer expectations

Enterprise-wide Alignment

Our entire organization impacts our ability to achieve CX goals. Whether directly or indirectly, our customer is impacted by every department, process, and technology.

FROM DISCONNECTED & PRODUCT-BASED EXPERIENCE... ...TO SEAMLESS & PERSONALIZED EXPERIENCE

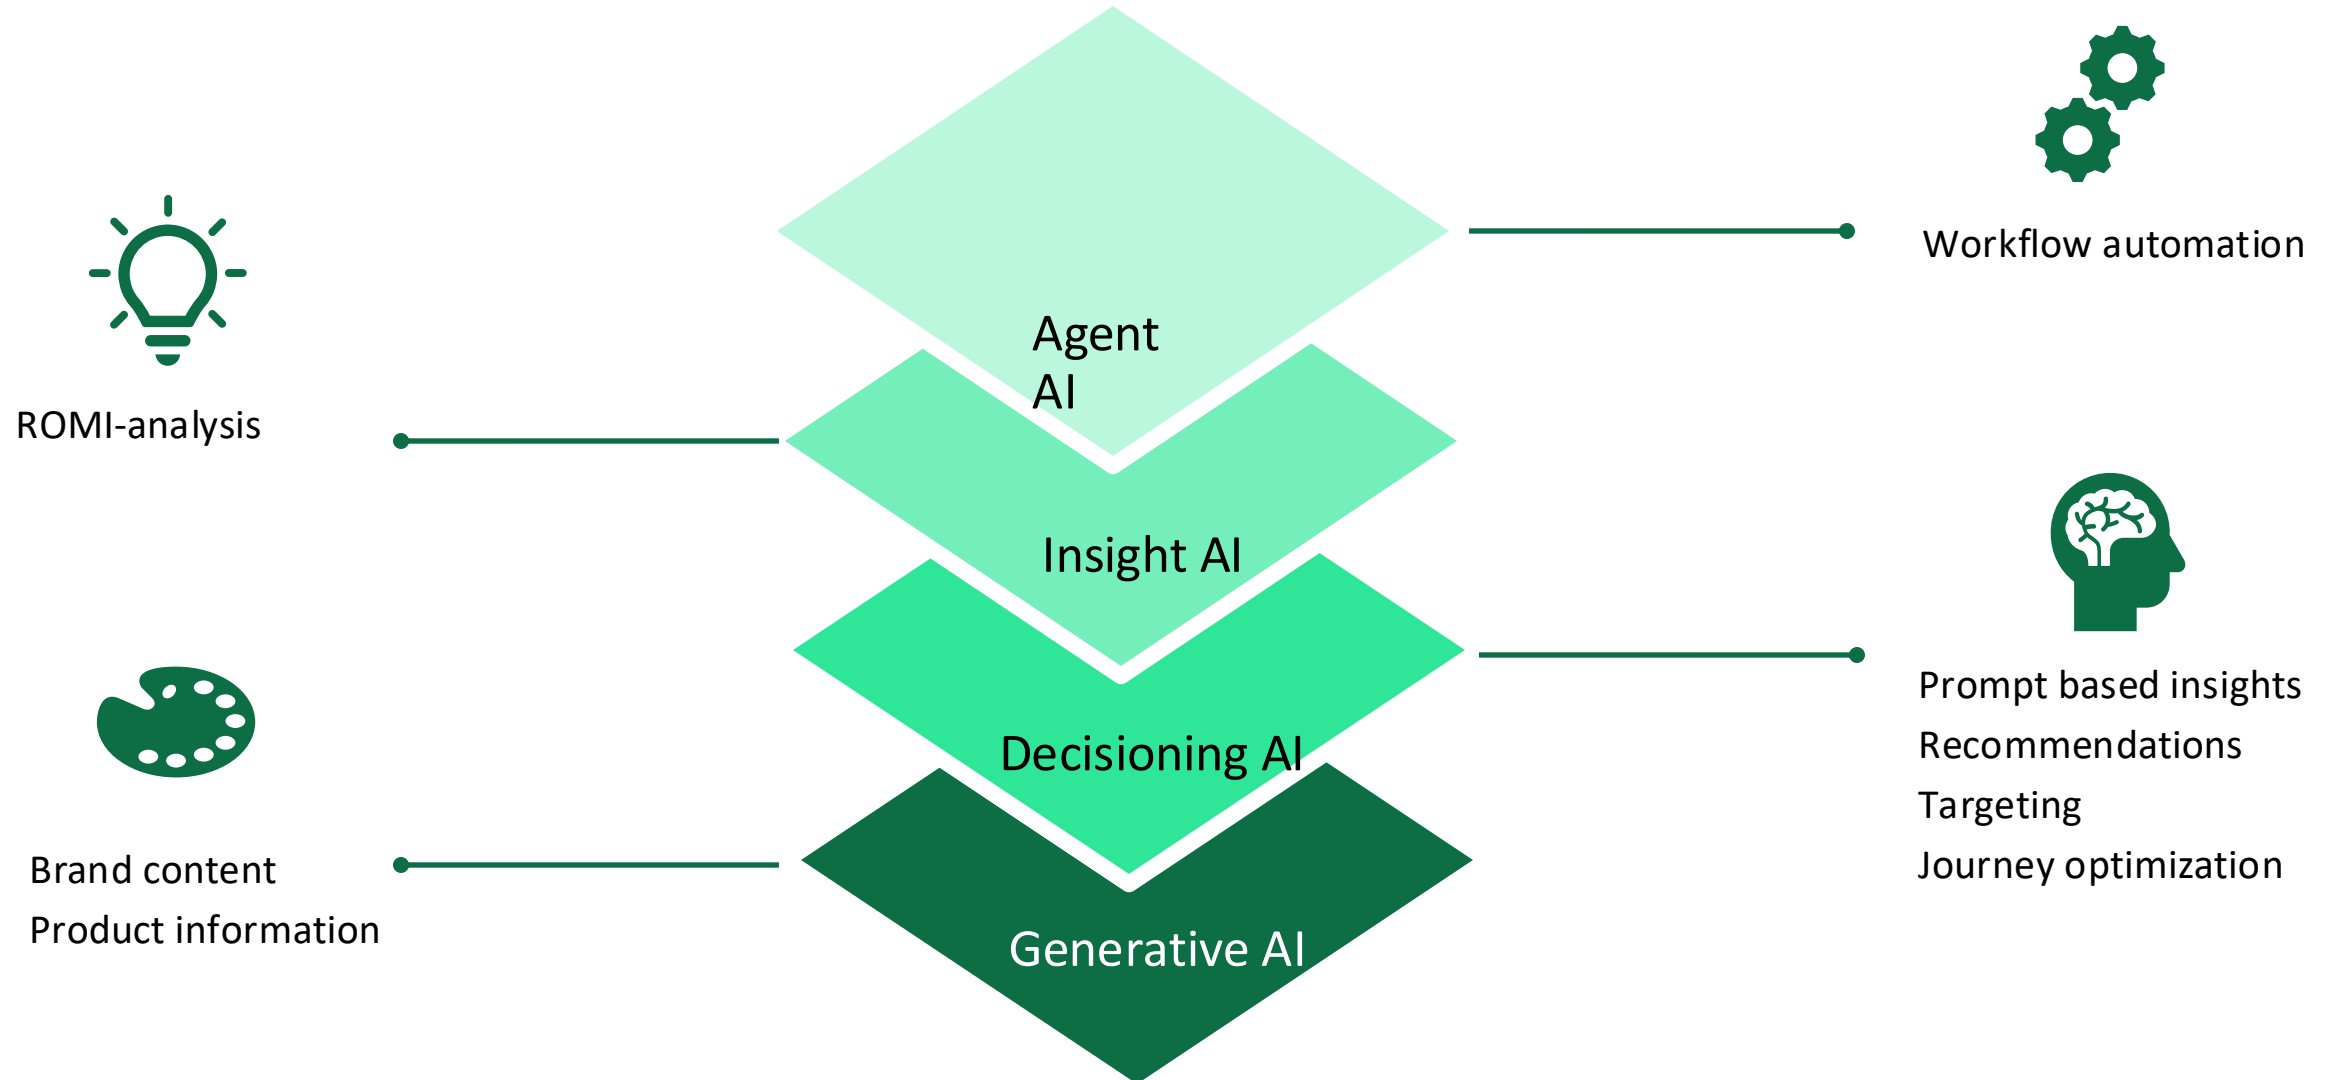

A photograph of a server room with multiple racks of servers. The scene is dimly lit, with green light trails and glowing indicators on the server units. The text is overlaid on the left side of the image.

AI AND AGENTS

ACTIVATION

VINKIT MEIKKISIVELTIMIEN VALINTAAN

Huoliteltu meikki syntyy oikeanlaisilla siveltimillä. Kokosimme sinulle joukon erilaisia meikkisiveltimiä eri tarpeisiin sekä muita meikkivälineitä täydellisen meikin luomista varten.

LUE LISÄÄ

KUIVASHAMPOIDEN DO'S AND DON'TS

Sokos Emotionissa työskentelevä kosmetologi Emma Poddukin esittelee Batisten tuotteiden avulla, miten kuivashampoota kannattaa käyttää, jotta hiuksista saa raikkaat ja puhtaat. Hän vinkkaa myös, kuinka välttää kuivashampoon käytön tyypillisimmät sudenkuopat. Katso Emmen neuvot ja kokeile itse!

INSPIROIDU

Inspiroidu-sivulta voit lukea uusimmat artikkelit kosmetiikan, muodin, kodin ja hyvinvoinnin valikoimasta, sekä tutustua ajankohtaisiin kampanjoihin. Ihastu, inspiroidu ja löydä tyyliä poimimalla vinkit talteen!

LUE LISÄÄ

Targeting based on data

Targeting relevant content

1) Marketing audience is matched with a targeted content in the content pool

2) Targeted content is shown to the app user among the content

3) Algorithm decides the placement of the targeted content based on scoring

Personalized recommendations

Personal recipe recommendations as a part of marketing

Relevance

- Digital footprint
- Purchases
- Seasonality
- History

EXPERIENCES WITH LUXID CLIENTS

Successful AI pilots

AI adoption & maturity

AI STRATEGY

- Use-case workshop
- Technology & data audits
- Education & enablement
- AI manifesto
- AI Tiger teams

OPERATIONAL EFFICIENCIES

- Brand ToV & translation automation
- ChatGPT etc. for X
- Bots, agents & lead routing automation
- Faster & more precise segmentation
- Research & market intelligence + competitor analysis
- Compliance & security
- Coding with AI & refactoring

AI INFRA

- Data warehousing + data accessibility & utilization
- Activation layers (CDP)
- Agentic AI powered marketing & sales hubs

ANALYTICS & DATA

- Natural language Talk to data
- Cross-sell & upsell predictive analytics (product affinity)
- Faster & novel Segmentation
- Predictive churn

CUSTOMER EXPERIENCE

- Zero touch sales - organizations
- Digital service integrated AI assistants

Operational / Foundational

Strategic

Key take-aways based on findings

Create an AI roadmap

This empowers individuals in the organization and gives consolidated direction to all AI efforts.

Aim at CX improvement

Operational efficiencies harvesting are the low hanging fruit, but CX improvement makes you an industry leader.

Faster data vs. more data

A bias towards action ensures you learn. Don't let perfect 360 data be the enemy of done – start with data you have.

Enable AI training

You will see role hybridization – understand the dimensions of the processes outside but close to your role. Apply “next level thinking”.
